HONGKONG OFFICE: 10A, DES VEXES ROAD CL.
LONDON OFFICE: 131, FLEET STREET, E.C.

The Daily Press.

HONGKONG, OCTOBER 20TH, 1905.

A CORRESPONDENT a few weeks ago inquired in our columns whether the local branch of the China Association was as moribund as its London Committee was alleged to be. The Report on the work of the local branch during the last eighteen months has just been issued, and this will afford very satisfactory proof that the Association is a vitalising force in our midst, and has done much for the protection and advancement of British interests in a quiet, unostentatious but withal very effective manner. The Annual Report reveals in the first place that it is to the persistence of the Committee of the local branch of the Association that we owe the gratifying progress which has been made towards providing the line of railway which is to connect us with Canton. We have learnt from previous reports of the unavailing efforts made by the Committee to impress upon the Foreign Office and the British and Chinese Corporation the urgent importance of the line. Matters took a satisfactory turn in May last year when the Hon. Mr. GERSHON STEWART, after paying a visit to the North of China, wrote a letter of considerable length to Mr. R. C. WILCOX, who was then the Chairman of the Hongkong Committee of the China Association, relating what he had seen and heard of railway construction in the North, and, applying the moral, suggested that if the British and Chinese Corporation were unable to use effectively the concession they held for the construction of a line from Kowloon to Canton, the Colony would be well advised to endeavour to have the concession handed over to itself. "Presuming that a clean

concession be acquired the annual cost to the Colony of a guarantee of say 4 per cent. would," Mr. STEWART urged, "be a justifiable risk, if merely as an insurance against a port being opened which might do Hongkong irreparable mischief." Mr. STEWART suggested to the Committee that in the event of their agreeing with these views they should form themselves into a deputation and wait upon HIS EXCELLENCY THE OFFICER ADMINISTERING THE GOVERNMENT with recommendations along the lines above indicated, which are fully set forth in the letter. This suggestion was at once adopted, and for the first time we have "published by permission" the report of the interview which then took place; Mr. R. C. WILCOX, as Chairman, being the spokesman and reading a lengthy address which sets out with great strength and clearness the case for prompt action along the lines which the Hon. Mr. GERSHON STEWART had suggested. In the Hon. Mr. F. H. MAY, C.M.G., the Officer then administering the Government, the deputation found, as they anticipated, a sympathetic listener and a warm advocate of the early construction of the line, if necessary with the guarantee of the Government. The result was that when Sir MATTHEW NATHAN came to take up the reins of Government in the Colony he announced himself in his first public speech as in favour of the early prosecution of this important work. Then after resigning themselves to "a policy of temporary inaction, waiting with what patience they might for some settlement of certain questions unknown," the China Association laid before the GOVERNOR an expression of their opinion on the subject and urged HIS EXCELLENCY to take the earliest opportunity of forwarding it to the RIGHT HONOURABLE THE SECRETARY OF STATE FOR THE COLONIES. The result, as all know now, is that the Hongkong Government has undertaken to construct that portion of the railway which will lie in British Territory; a survey of the route is being made, and H.E. THE GOVERNOR has been given by the Legislative Council the necessary authority to raise a loan for the construction of the line. For this result, as we have shown, the community is largely indebted to the persistent advocacy of the China Association.

No less than twenty-six pages of the Appendix are devoted to correspondence on this important subject, and the whole is well worth reading. The Committee has besides dealt with such matters as the Reform of the Currency in China; they have been instrumental in changing a vexatious order of the Imperial Maritime Customs with regard to steamer permits on the West River; they have dealt with the transit pass question in Yunnan; with the rights of neutral shipping during war; with the Russian occupation of Newchwang; the question of new Treaty Ports in Manchuria; the employment of capital in railway enterprises in China, and matters of a like nature—making altogether a very satisfactory body of evidence that the Association is a really useful and necessary organization in our midst and deserving the warmest recognition as such by the entire British community.

We cannot, however, omit to take notice of the letters in the Appendix indicating that it has been felt by merchants in China that the London Committee of the China Association has in the past been apathetic and has not done as much as it might have done to vigorously urge upon the attention of the Home Government the views of British merchants in China upon questions which from time to time arise. It has seriously been proposed in Shanghai that the China Association should amalgamate with or allow itself to be absorbed by an association called the China League. If such an association exists we have, in common with the Hongkong Committee of the China Association, to confess our ignorance of any of its achievements. The China Association, on the other hand, has long been established and, having the ear of the Foreign Office, it has done through its London Committee some very useful work of which the annual reports have afforded satisfactory proof. The nature of the work of the Association does not admit of constant advertisement, and on this account, perhaps, the Association does not enjoy as much public recognition of its value as it is fairly entitled to receive. But we should hardly have credited the London Times with ignorance of the existence of such a body, and we were consequently surprised to read recently in the leading London journal the following comment:—"What is urgently needed, amongst other things, is a strong and 'united organization in this country (England) which, instead of being sub-

servient to individual interests or political wire-pulling, shall act as the accredited 'and responsible mouthpiece of the great 'British communities in the treaty ports of 'China.' Either the Times is (1) actually ignorant of the existence of the China Association; or (2) does not regard it as a strong and united organization; or (3) considers it a body 'subservient to individual interests or political wire-pulling.' The last suggestion we may altogether dismiss, and it only remains to be said that if the China Association is not 'a strong and united association,' it rests entirely with the British communities in China to make it such, and so strengthen the influence of the London Committee that it will compel more recognition than it apparently does to-day as their accredited and responsible mouthpiece.

M. Delassé had a bad motor accident on 20th September, from which he narrowly escaped with his life.

After nineteen months' suspension, the Russian Volunteer Fleet is resuming its carrying trade with the Far East.

The Russian Government has decided to "appropriate" £20,000,000 for a new Navy, to be ready in five years.

The Tsar has granted permission to Mr. William T. Stead to travel through Russia and address political meetings for the purpose of "explaining the advantage of the new Duma."

The 15th anniversary of the birth of Dr. Johnson was celebrated at Lifford on Sept. 18th, the proceedings including an old-time supper at which Dr. Richard Garrett was the principal guest.

Latest mail advices confirm the extraordinary report that the Tsar is about to issue invitations for a new Peace Conference at the Hague. The world has no record of a peace of impudence more brazen or colossal.

A Labuan telegram to London last month said:—"It is believed that at the New Year Labuan will be attached to the Straits Settlements, under a Resident Councillor, probably Mr. Gueritz, the present Governor."

The *Petit Parisien* says that the Treaty of Peace as telegraphed in cipher to St. Petersburg, comprised 15,190 groups of figures, and counting each group as one word, paid for at the full tariff, the telegram cost about £1250.

Merchants in the Far East will regret to learn that Herr G. Kunst, formerly partner of the firm of Kunst and Albers, of Hamburg, has died of heart disease. The deceased was highly esteemed in the German mercantile world.

Mr. J. C. Inglis, the general manager of the Great Western Railway Company, who has been appointed arbitrator on behalf of the British Government in the case of the Tanjong Pagar Dock Company, was to leave Victoria on Sept. 21st for Marseilles, where he would embark in the P. and O. steamship *China* for Singapore.

The famous Druce claim to the dukedom of Portland and its vast estates has entered a new phase. A limited liability company with a capital of £11,000 has been registered at Somerset House. Its title is "G. H. Druce, Ltd.," and the directors are Mr. George Hollanby Druce, the claimant, Mr. George Crickmar, and Mr. John Crickmar.

Laffan's Agency telegraphs from New York that an American society called the Friends of Russia has made its appearance, and throughout the United States is appealing for financial aid for the Russian political prisoners at Saghalien, whom Japan has decided to release. Those prisoners are in urgent need of help to enable them to reach other countries, and it is said that their treatment in the Russian prisons has unfitted them for physical labour for the present.

Tremendous excitement, says a Brussels correspondent, reigned at Antwerp and in the Belgian commercial world last month. An entire portion of the port of Antwerp seemed to be on the point of caving in. This would prove a frightful catastrophe. The southern quays were threatened. Several hundred men were at work. A party of foreign engineers who happened to be in Antwerp visited the scene of the accident. The cause is as yet unknown.

The Java Budget has been introduced in the Second Chamber, and shows that the deficit of 1904, estimated at fl. 3,500,000, will be about 2,000,000 guilders more, and must be fixed at fl. 5,521,435. The Budget for 1906 exhibits the following figures:—Revenue in Holland, fl. 17,101,415; revenue in India, fl. 131,938,598; total, fl. 149,039,313. Expenditure in Holland, fl. 29,967,784; expenditure in India, fl. 13,672,850; so that the Budget closes with a deficit of fl. 10,649,537.

The Central News says it is understood at Southampton that the Union Castle liner *Arundel Castle*, which has been laid up in Southampton Water for several months, has been purchased on behalf of the Russian Government. She is being fitted as a troopship, and it is believed that she will be used to bring back to Russia the prisoners of war now in Japan. The Union Castle have five other large steamers lying idle in Southampton Water as a consequence of the slackness of South African trade since the close of the Boer War.

Mr. and Mrs. E. A. Hewitt returned to the Colony yesterday by the P. & O. mail steamer *Arctica*.

A Rugby Football team from New Zealand, touring England, beat Devon by 55 points to four last month.

Japan has given a contract for 7,400 tons of bridge steel to the American Bridge Company. It is for railway work.

Our shipping advertisements to-day include an announcement by the Hamburg-Amerika Line of a steamer to sail for Vladivostok.

The Directors of the Union Insurance Society of Canton, Limited, announce a dividend of 10 per cent. on the paid-up capital.

Messrs. Benjamin Kelly & Potts were advised that the Chinese Engineering and Mining Co., Limited, has declared a dividend (Coupon No. 5) of one shilling per share.

Herr Bebel, the famous German Socialist leader, remarked in a recent speech that Russia had lost the position of arbiter in Europe, which she had been holding since 1871.

The body of one of the Chinese women drowned on Monday, when the ferry boat *Evening Star* collided with their sampan, was recovered yesterday and conveyed to the mortuary at Kowloon.

A rival to the Standard Oil Company, with a capital of £40,000,000, has made its appearance. The syndicate is said to control the entire Texas output of oil, as well as part of the output of other states. A drop in prices has already been recorded, owing to the competition.

The owners' fears regarding the safety of the s.s. *Lucia Victoria* have now been allayed. The vessel was delayed in Saigon several days after the appointed time for sailing, consequently the captain, according to custom, did not advise Messrs. Musso & Co. until the day of leaving port. They received a telegram yesterday to the effect that all was well.

Princess Louise of Coburg has been struck off the list of ladies of the Order of the Star and Cross. It is stated that a Parisian publisher has made the Princess an offer of £40,000 for the copyright of her memoirs. It is known in Vienna that the Princess has the intention of writing her memoirs, but she is not expected to publish them as long as her father, King Leopold, is alive.

On Wednesday afternoon a Chinese constable noticed an Indian—who is supposed to have been absent from the s.s. *Poon* since 15th inst.—running about the Praya, chasing Chinese, and finally catching a gentleman's horse by the head. Then the lakong interfered and took him to the Police Station on a charge of being drunk and disorderly. There he vomited very badly and he was sent to the hospital, where it was discovered he was suffering from the effects of having taken opium.

A native was admitted to the Government Civil Hospital yesterday morning in a semi-conscious condition, having been nearly drowned. When walking, in a drunken condition, between the Queen's and Murray Wharves he fell over the wall. A constable heard his cry of "Save life," and with the assistance of some people on a sampan pulled him out of the water and tried the usual methods of resuscitation, afterwards conveying him to the police station whence he was removed to the hospital.

It is already clear that Australia is favourably disposed towards General Booth's emigration scheme. In view of the crying need of settlers, the attitude of the different State Premiers is decidedly sympathetic, though naturally information is sought respecting the kind of people that General Booth hopes to send out. Ne'er-do-wells and those who are unemployed because unemployable would certainly not be welcome under the Southern Cross, while, on the other hand, those who are prospering in the Mother Country will not desire to emigrate and could ill be spared. Between these limits General Booth's selections must be made, and upon the wisdom and judgment shown in his selection will the success or failure of the whole scheme depend.

A section of the members of the British Association paid a visit on Sept. 16th to Umali, on their way to Beira. They were hospitably entertained, and a deputation of Portuguese headed by the secretary of the Governor of Mozambique, joined in the welcome. Professor Darwin, in responding to the toast of the British Association at the luncheon at Salisbury on Sept. 15th told a story of two workmen in Johannesburg who were engaged in discussing the subject of the association. One said, "I have not seen them yet. When do they play?" He evidently thought the association was a football team. (Laughter.) They could imagine the disappointment of these gentlemen when they saw a professor in a helmet chasing butterflies.

Our Hongkong readers may remember that Mr. Sandow, the strong man, had a gift of story-telling. On reaching London, he gave the newspaper interviewers the following anecdote:—"Among the offers which he received abroad was one from a wealthy Parsee. 'His man was a sufferer from elephantiasis, and in six months he was cured under Sandow's treatment. The agreement was rather remarkable. If Sandow effected a cure the Parsee offered to pay £10,000 but if no cure were effected then Sandow refused to accept anything. At the end of six months the man was cured, and Sandow received the £10,000. So pleased was his patient that he offered £20,000 for Sandow to remain with him another three years, but this tempting offer was refused."

Europe does not regard the achievement of the Russian Peace Plenipotentiaries as an unmitigated triumph. Many papers, including Russian, dwell on the loss of prestige and failure of ambition.

Much has been written upon the famous bird's nests regarded as a delicacy by Chinese epicures, but the general public has still the haziest of notions upon the subject. A banquet just given at the Chinese Legation in Brussels, on the birthday of the Emperor of China, has called forth, from a Belgian official long resident in China, one of the clearest statements of the subject ever made, says the *Globe*. It appears that the nest, which is that of the Salangana, a species of sea-swallow, is not eaten at all. What happens is this. The bird, which feeds upon seaweed, salivates freely; and the saliva, deriving a peculiar flavour from the seaweed, settles in crusts of an inch thick upon the nests. It is this encrusted saliva which is eaten. Nest-hunting is dangerous and profitable, and is often farmed at high rates.

The Merchant Service Guild received a communication from Capt. C. J. W. Pfoundes, F.R.G.S., their agents at Kobe, stating that the Japanese are beginning to re-name the localities they have occupied, and all charts on sale are being called in for corrections by the Hydrographic Department at Tokyo. A number of places in Saghalien, in particular, are being re-named. Accordingly, in the interests of merchant navigators of other countries, Capt. Pfoundes has addressed a letter to the Hydrographic Bureau at Tokyo, and to the Hydrographic Department in England. Capt. Pfoundes points out that if the present familiar names are erased from the charts, great confusion is likely to arise, not to mention the serious dangers which would be presented. The Hydrographic authorities are urged to bracket the old names with the new ones adopted when the alterations are made on the charts, then in the course of time their new names will become familiar, and the old ones can eventually be eliminated. The Guild are informing Capt. Pfoundes that his representations as their agent in this matter meet with their cordial support.

THE P. AND O. COMPANY'S NEW FLEET.

As competition in the shipping trade grows keener shipping companies find it necessary to have larger and more up-to-date vessels to meet the growing demand. In this respect the Peninsular and Oriental Steamship Company do not intend being left behind, and their old boats are gradually being withdrawn from this run and replaced by larger and better craft. The last of the old fleet visiting this port will be the s.s. *Chusan*, which calls at Hongkong on the 30th December. Then, with the New Year, an entirely new fleet of P. and O. steamers will plough eastern waters. The first of the new arrivals was the s.s. *Arctica*, of 6,603 tons register, which made fast alongside the Kowloon wharves yesterday morning. For some years this vessel has been on the Australian run, but after a complete refitting, it has been decided that her ports of call shall in future be eastern. The *Oceanic*, a sister ship, is also to be put on this run, and in all probability, also the *Victoria* and *Brahmaputra* at a later date. Besides the *Arctica* and *Oceanic*, four newly built ships the *Delhi*, *Delia*, *Dongola*, and *Derwalia*, all 8,000 tonners, will be added to the P. and O. Company's eastern fleet, the first of which is expected to arrive here sometime in December.

MACAO.

FROM OUR CORRESPONDENT.

Macao, 18th October.
FIRE AT LAPPA.
Last Sunday was an unfortunate day for the people of Lappa. A big fire broke out in the morning which lasted for several hours, destroying a great portion of the village.

THE RICKETY GAOL.
About three months ago the prisoners in the public gaol had to be removed to the S. Francisco Barracks as the wall of the prison was destroyed by the earthquake. Immediately after the accident, workmen were seen busily engaged in shoring up the wall. Since then nothing further has been done by the Local Senado, and people are asking: "When will the corporation do the necessary repairs?" Perhaps they are waiting until the remaining portion of the wall comes down and kills somebody. I hear that the prisoners will soon be removed from their present quarters to an old house in the Rua Central belonging to the Fernandes family. This house is not of the sort to retain any gang anxious to escape. Why not place the prisoners in the Barra Barracks, which are safer and more suitable for the purpose?

THE INCREASE OF TAXES.
This is the general topic of conversation in this city. Some two years ago a commission was appointed by the Government to study the best means of regulating the taxes of this city. This commission recommended, among other proposals, that the house tax should not be paid according to the rental, but according to the area occupied by each house. The Government, seeing the advantage to be derived, approved of the proposal and is now going to adopt it. It is indeed too bad for the Government to increase the tax on the poor inhabitants of Macao. They are already contributing more than enough for the expenditures of the Colony, and the Government have enough funds for not only the improvement and requirements of Macao, but also to send periodical remittances to her sister colony, Timor. It is really hard for the inhabitants of this city to pay increased taxes and see the money go out of the Colony. What is worse, I also hear that the Local Senado is going to increase the lighting tax. What next, I wonder.

SHANGHAI RELEASES QUARANTINE.

The following telegram, dated the 18th October, has been received from H.B.M. Consul-General at Shanghai:—"Hongkong released from quarantine, 18th October."

THE TANJONG PAGAR DOCK CO.

SHAREHOLDERS' MEETING.

An extraordinary meeting of the Tanjong Pagar Dock shareholders was held on Oct. 13, to deal with the profits made during the half year ending June 30. There appears to have been a full attendance.

The Hon. Mr. John Anderson was ruled out of order for asking a question designed to fix the responsibility for the delay in informing the shareholders of the Government's decision to appropriate the concern. Another question which he asked, concerning the coal consumption during the half year under review, was also unanswered in spite of his protests.

It was decided by 31 to one (Mr. Anderson voting against on the ground that reasonable information had been withheld): "That the Directors be requested to apply to Government for the payment over to the company of the sum of \$891,675.02, as the balance shown on the certified accounts, representing profits available for immediate distribution as dividend, and legally distributable as such."

A dividend of \$24 per share was then declared. At a special meeting following, by 22 votes to three, it was decided to pay the first directors for their services after June 30, 1905, the total amount of \$22,500 per annum. This was protested against on the ground that these directors were also on the Government Board, and being paid by the Government.

We have collated the foregoing statements from the *Singapore Free Press*.

LATEST STEAMER MOVEMENTS.

The O. & O. str. *Doric* will leave Manila on Saturday morning, the 21st inst., and will be due to arrive at Hongkong early Monday morning, the 23rd inst.

The str. *Gregory Apar*, from Cebu and Penang, left Singapore on the 18th inst., p.m., and is due here on the 24th inst.
The H.A.L. str. *C. Ford*, from Hongkong, left Singapore for this port on the 19th inst., a.m., and may be expected here on the 25th inst., a.m.

CANTON.

[FROM OUR CORRESPONDENT.]

18th October.

HARBOR POLICE FOR CANTON.
Victory Shum has decided to establish a river police force for Canton Harbor from the 1st of the 12th Moon. To begin with, the Headquarters will be at Hoi-sha-tai; the Western at Wong-sha and the Southern at Tai-chang-mai Fort (Macao Fort). Each station will be provided with a steam pinnace and six police-boats. Each boat will have accommodation for six policemen: total force 188 men. These boats will patrol the river day and night and it is expected that good order may result.

RECOMMENDED FOR PROMOTION.

Victory Shum has memorialized the Throne recommending for promotion and honorifics Wong-Ping-Yau, the new director of the Yue-Han Railway, and Chan-Mung-Tsang, the Protector of Canton, the former to receive the red button of the first degree and the latter to obtain a title. These officials should show themselves particularly grateful as this is the first memorial of the kind that Victory Shum has sent to the throne since his arrival here.

ROBBER INFESTED DISTRICTS.

It has recently been reported to Victory Shum that the Tung-Kuan and Sun-an districts, both of which are bordering on the British New Territory, are infested with robbers. His Excellency has deputed two experienced magistrates, Tsoi-Kan-Leung and Lai-Shun-Hi, with instructions to work in accord with the local civil and military officers and to devise means to clear the country of these desperadoes and restore peace in the troubled districts.

A POLICEMAN BEATEN.

While the Literary Chancellor, Yu Sik, who arrived yesterday, was crossing the town on his way to the Yamen, the official procession was met in the Kwai-leung-Kai by a crowd of about 30 workmen from the Telephone Company who were carrying various materials. One of the Chancellor's attendants was knocked down and a big row ensued. A policeman intervened at the scene and tried to arrest the offender. His comrades came, however, to the rescue and in spite of the frequent calls for help made by the representative of the law, who was severely knocked about, he was taken by the workmen to the telephone office and detained. The Inspector of No. 3 Station appeared later and obtained the policeman's release. This is the land of topsyturvydom, indeed!

NEW WHARVES.

Passengers coming up to Canton by steamers other than those of the Canton-Macao S. S. Co. have hitherto been obliged to use a sampan for landing. A company formed some time ago named Victory Shum for permission to erect steel piers along the bank of the new reclamation and have obtained permission to proceed with the work. Work was commenced yesterday and the new piers are piled up with girders, timber, etc. This will be bad news to the shareholders of the Canton-Macao S. S. Co., as competition will henceforth be keener than ever. The company might have kept the wharf monopoly in their hands by buying up the lots on the bank available for that purpose.

A MAGISTRATE ARRESTED.

Chai-Ting-Kam, ex-Hongkong magistrate, was arrested on the 15th inst. by order of the provincial judge. A deficit of over 10,000 taels has been discovered in his accounts by the new magistrate for that district. Chai has been locked up in the Poon-Yu goal pending his trial.

THE KWONG-NGA LANE ROBBERY CASE.

On the 20th ultimo I reported that a daring robbery had been committed at house No. 18 in the Kwong-Nga Lane, in broad daylight. The house was occupied by an ex-patent Tailor, Sun-Yui-Kwan, and jewellery and money to the value of ten thousand taels had been carried away, no arrests having been made so far in connection with this affair and none of the stolen property having been recovered. Sun petitioned the Victory praying that orders might be given to the responsible authorities to exert themselves a little more in the matter. His Excellency has replied that the police and bravos of that district must be blind and deaf to allow such a daring act of robbery to be perpetrated under their very noses. He has consequently ordered the provincial judge and the chief officer of the military station to inform the Nam-Hoi that ste, a sum. he at once to have the robbers arrested and the stolen property recovered, otherwise he will be punished.

SHOP-LIFTERS.

A sewing shop was recently started by a woman in the Ching Shui He (in the new walled city). The shop employed only women and girls. Jackets and other garments were sold. Bad characters took advantage of the fact that there was not a single male servant on the premises and frequently snatched an article or two under the pretence of buying them and ran away. The proprietress reported the matter to the police who sent a couple of men to watch the shop. Several of the thieves have now been arrested.

WEATHER REPORT.

The Hongkong Observatory yesterday issued the following report:—

On the 19th at 11.50 a.m. The barometer is falling in Japan, and rising over China. The shallow area of low pressure is lying now over S.W. Japan. It is moving slowly Eastwards.

It is followed by an area of high pressure which lies over N.W. China.

Pressure is slightly low in the neighbourhood of the S. Philippines.

Gradients are steeper on the China coast and strong monsoon may be expected to set in again in the Formosa Channel, and over the N. part of the China Sea.

Forecast:—N. winds, freshening; fair, cooler.

THE UNION INSURANCE SOCIETY OF CANTON, LTD.

The thirty-second ordinary annual meeting of shareholders of the Society's offices, Queen's Buildings, at noon yesterday. There were present Messrs. H. W. Sado, (chairman), A. G. Wood, N. A. Siebs, A. Forbes, G. H. Medhurst (directors), W. J. Saunders (secretary), Hon. Mr. Gershom Stewart and Messrs. A. V. Apear, Ho Fook, H. M. Nomaze, H. F. Carmichael, A. J. Morris, W. H. Gaskell, F. D. Goddard, J. T. Vernon, C. H. Kogge, G. H. Potts, J. A. Jupp, C. W. Richards, W. Melchior, A. B. Rouse, C. M. G. Burnie, H. J. Carvalho and J. A. Carvalho.

The SECRETARY having read the notice convening the meeting, the CHAIRMAN said:—
GENTLEMEN—The report has been in your hands for some time and I will with your permission take it as read. I think I may fairly say that the figures presented in this report are satisfactory in every particular. The premium income is larger than it has ever been before and the interest receipts also show a considerable increase on previous figures. At the same time the charges show a decrease while the losses and claims are about the same. I will not take up your time in going through the figures item by item, as I have no doubt you have all studied them carefully, but I may mention that sterling exchange taken in 1904 this year, as against 1903 last year, and that the dollar equivalent of all sterling items would naturally owing to this cause show a decrease of about 2 per cent. I will now come to the division of profits for the year 1904. As you may have heard, a considerable portion of these profits has been derived from the war risk business. Some of you may think that it would be better to avoid this class of business as being too speculative a nature; but it is not possible to do this altogether, as the underwriters have to oblige regular customers by taking these risks sometimes. Also, when a war is going on, there is less ordinary business than at other times and consequently more competition for it, whereas the market is restricted for war risk business and rates of premium can be maintained at a high level. Although this business calls for special judgment and constant watchfulness on the part of those in charge of the underwriting, it can be conducted, and in our case we think has been conducted, on a safe and remunerative basis (applause). However this may be, the Society's war risk business accounts for some 457,000 of the profits of the year 1904, which must be considered as a "windfall" and not as part of the Society's regular earnings. I mention this figure in sterling, not because the profit all accrued in sterling, but because it is convenient to take out all such statistics in sterling to avoid the exchange difficulty. It is not considered proper for an insurance company to pay a larger dividend one year than it can keep up in subsequent years nor to apply underwriting profits to dividend to more than a small extent. Absolute stability is the first point to be looked to and a fluctuating dividend does not convey the impression of stability. In recommending a dividend of 80 per share, which is 50 per share more than last year, we think we are increasing the dividend quite as much as is desirable. After paying 80 per share as dividend, we have left enough to enable us to add \$150,000 to the silver reserve fund and \$22,588 to underwriting suspense account against outstanding liabilities on 1904 a/c. Among these liabilities is included a sum of some \$50,000 which your Board has decided to employ in the payment to the staff of a bonus of 20 per cent on their salaries. The results which have been put before you show a satisfactory to the good work done by the whole staff, and I feel sure that all shareholders will approve of the Board's proposal to show their recognition of this work in the manner suggested (applause). The figures for the year 1905 as shown in the report are very satisfactory. There have been a number of losses since, but after making a full estimate for those the balance in hand at the present date is about the same as it was last year on 1904 account. I would now like to mention the scheme for purchasing the majority of the shares of the China Traders' Insurance Company and issuing in exchange new shares in our Society. As you will have learned from our circular letter of 1st October an extraordinary general meeting will be held very soon, at which the whole scheme can be discussed and all I wish to say now, while on the subject of accounts, is that we are confident that the proposed increase of capital will not in any way interfere with our being able to keep up the standard of our dividends in the future. Before proposing the adoption of the report and accounts I shall be glad to know if any shareholder wishes to ask any questions.

No questions were asked, and the CHAIRMAN proposed the adoption of the report and accounts.

The Hon. Mr. STEWART in seconding the motion, said:—

Mr. CHAIRMAN, Gentlemen—I rise with much pleasure to second the adoption of the report and accounts, and in doing so feel privileged to be able to do so in a way which recommends the acceptance of figures which speak so eloquently for themselves. I am glad to notice the word of warning in the Chairman's speech as to our counting as an annual certainty on the exceptional good fortune which it has been the lot of this company to have had for the last few years. Those who are interested in Marine Insurance need no reminder as to how quickly a very good looking account might at the last moment be turned to pieces by a devastating typhoon or by a big gale in the channel, but shareholders who merely collect their dividends are apt sometimes to forget the risks which are run to obtain these dividends, and I think it is well to remind them that there is a debit as well as a credit side to an underwriting account. I feel sure that all shareholders will approve of the careful manner in which our large earnings have been proportioned. The building up of a strong reserve is a policy which is sound and reasonable. With regard to the pending amalgamation of our company with the China Traders' Company, as that matter is still sub judice I will not say more than that I—and I believe the whole of us here—feel such confidence in those who administer our interests in any policy, whether due consideration they deem advisable for the furtherance of our general business (hear, hear). The substantial rise of about 50 per cent in the value of China Traders stock seems to me to show that a close association with the Union Insurance Society is not without attraction to a good many shareholders in the sister company. I listened with pleasure to the chairman's announcement of a bonus to the staff. They have for many years, in times of peace, reaped for us a most satisfactory harvest. It is still more satisfactory for us to know that they have reaped a more satisfactory one in the troubled times of war which we have just passed through. It is not

usual that people can adapt themselves quickly to new environments, but I think the figures clearly show that our staff have been able to meet the new problems which they have had to face with promptitude, ability and success. I am very glad to notice that the Board has shown its appreciation of this valuable quality in the way they have done. I feel certain that the bonus you have asked for will be voted by the whole of the shareholders with extreme cordiality (hear, hear). With those few remarks I beg to second the adoption of the report and accounts (applause).
The motion was carried.

The SECRETARY on behalf of the staff returned thanks for the hearty vote of thanks accorded them.

Mrs. VERNOR proposed the re-election of Messrs. N. A. Siebs and A. G. Wood as directors.
Mr. MORRIS seconded the motion, which was agreed to.

It was proposed by Mr. RICHARDS, seconded by Mr. JUPP and agreed, that Messrs. W. H. Potts and A. R. Lowe be re-appointed auditors.
The CHAIRMAN—That is all the business, gentlemen. Thank you for your attendance. Dividend warrants will be sent out to-morrow.

POLICE COURT.

Thursday, 19th October.

BEFORE MR. F. A. HAZELAND (First Police Magistrate).

AN INCIDENT ON THE LAISANG.

The captain of the *Laisang* proceeded against a native employed on the vessel for breaching the cargo. It appeared that when P. C. Borry went on board, in response to the usual signal, the captain charged the native with opening a case of opium, and then it transpired the native had assaulted the other Chinaman who witnessed the offence. The magistrate held that the first charge was not proved but fined defendant \$10 for the assault.

BUILDING PROSECUTIONS.

The hearing of the summons against the Wong Fong firm of contractors for contravening the building regulations by using inferior mortar—adjudged from last week—was continued. The case was heard by Mr. P. W. Goldring defended.

The points raised by the defence were that the test was not a fair one and that the mortar was good.

Inspector Edwards was further cross-examined by Mr. Goldring. He stated that he had no knowledge of how lime was manufactured and that he supposed no mortar was better than that used by the Wong Fong firm. Mr. Goldring then asked the witness if he had any knowledge of the results of an examination of the two triquetras, the subject of the charge. He did not consider them mortar at all. It was impossible to say without a chemical analysis in what they were deficient, but the defect may have been due to bad mixing, bad lime, at the first or the lime spoiled. From appearance, he should say the mortar on the bricks produced was poor, but he would not like to express a definite opinion without a test. He would say, however, there was a lot of lime in the mortar, of sufficient extent, too, and it had not been properly mixed. When you see that the mortar is noticeably bad, the examination of two triquetras was sufficient to support one's opinion.

Cross-examined. The rules for mortar in England did not apply to Hongkong, but he did not know what rules were applied here. He simply tested the mortar. He applied the English rule for testing mortar.

It is not a fact that the materials the earth and lime, obtainable for the manufacture of mortar out here are of a different nature from those at home?—You can obtain anything in Hongkong.

Witness added there were different methods of making mortar at home.

The Magistrate—Then you say they are different.
Witness—You cannot compare them. There are various ways of making mortar in England and there are different kinds of lime.

It is a fact that the 4 conditions are the same as in England?—You can get lime and sand in the Loai district exactly as here.

Witness stated that the best piece of mortar he had seen in Hongkong was a mixture of lime and sand. It might have been an exceptional case.

It is not a fact that the red earth commonly used out here for purposes peculiar and for the purpose of making mortar?—I don't know.
The case was adjourned till Tuesday afternoon.

ASSAULT.

Two natives were charged with assaulting one, Lam Chiu, at West Point on Tuesday.

Mr. P. W. Goldring (for Messrs. Bratton, Hett and Goldring) presented, and Mr. Otto Kung Sing appeared for the defence.

The facts of the case as related by Inspector Collie were that the complainant borrowed \$3 from an acquaintance named Lau Kam, and absconded immediately afterwards. Three weeks later as the creditor was walking with the two defendants, he met the complainant and demanded the return of his \$3. The debtor, a laborer, previously lived in the same premises as his creditor, and said he had not his creditor's outfit payment of the amount owing. A quarrel ensued, and the two defendants attacked the complainant while the creditor looked on. The defendants were ultimately arrested and taken to No. 7 Police Station, where it was found that the first was an ex-convict and the second a deserter from the police force who was wanted.

After hearing the evidence, his Worship held the assault proved and sentenced each of the defendants to two months' imprisonment with hard labour.

DESERTING FROM THE POLICE FORCE.

The second defendant was then put on his trial for deserting from the police force, and for neglecting to return his uniform and accoutrements.

The charge was proved, and the defendant was fined \$150, the alternative being two months' hard labour, consecutive to his previous sentence.

BEFORE MR. C. D. MELBOURNE (Acting Second Police Magistrate).

EXTENSIVE THEFTS.

Chu Sing, who stole a packing case containing 20 rolls of satin value £20-14s. from the premises of A. R. Marty of 20 Des Voeux Road, was sentenced to six weeks' hard labour and six hours in the stocks.

Chan Tak, for stealing iron from a store at Mong Kok, was sentenced to 15 days' hard labour.

SUPREME COURT.

Thursday, 19th October.

IN CRIMINAL JURISDICTION.

BEFORE SIR P. T. PIGOTT (Chief Justice).

MANSLAUGHTER.

Wong Hing, Lui Tam, Wong Hoag and Lui Sin were arraigned on the indictment of unlawfully killing and slaying one, Yau Kam, at Kowloon on the 21st September.

Sir H. S. Berkeley, Attorney-General, instructed by Mr. F. B. L. Bowley, Crown Solicitor, presented, and Mr. H. G. Calthrop, instructed by Mr. F. P. B. Hott (of Messrs. Bratton, Hett and Goldring) represented the prisoners.

The plea was not guilty, and the following, jury was empanelled:—A. R. Kinross (foreman), H. E. Craddock, A. Moulder, J. F. Whyte, W. W. Macmill, T. Banks and A. E. Asger.

The Attorney-General said the charge the prisoners had to answer was that of unlawfully taking the life of one, Yau Kam, under such circumstances as amounted to manslaughter.

The deceased was the friend of a Hakka coolie who was working on the reclamation at Kowloon Point, under one of the prisoners. On the 21st of last month he appears to have gone to the reclamation works to see his cousin; his object in going to see him was to persuade him to leave his work and return to his village, as his mother required him. The coolie, named Chon Sun, left his work and went off with deceased for the afternoon. He returned to the reclamation about five o'clock, when he went to the fourth defendant and asked leave to return to his village to see his mother, and to draw whatever pay was due to him. The other three defendants were present, and they appeared to be accused more or less by the men working on the reclamation. They refused the request of the coolie to go away, saying that he would have to work his mouth out. He persisted in his request and they persisted in their refusal. The result was that a quarrel ensued, and it was alleged that the first and second prisoners struck and kicked the deceased at the instigation of the third and fourth prisoners, who told them to strike him. One of them used the expression—"If he is killed, that will be our look-out."

The deceased appeared to have collapsed from the result of the attack upon him.

Carried by an Indian police sergeant to the Water Police station close by, and died almost immediately after his arrival. The post mortem examination revealed the fact that the man was suffering from an enlarged spleen, and subject to this somewhat delicate state of health he died. The fact that he had an enlarged spleen was no excuse for those who unlawfully attacked him. If they had any grievance against him, their remedy was to go to the police station and there have the matter settled.

At the conclusion of the evidence Mr. Calthrop addressed the jury, and his Lordship, in summing up, placed the salient facts of the case before the jurors.

The jury retired, and on returning found the first three prisoners guilty, and the fourth not guilty.

His Lordship discharged the fourth prisoner, and sentenced the remaining three each to five years' penal servitude.

CHINESE ASSOCIATION.

HONGKONG BRANCH.

The report of the committee of the Hongkong Branch of the Chinese Association was issued yesterday from the *Daily Press* office. It says:—

Our last report was written in February, 1904, and was approved by members at the general meeting on 17th March of last year.

The present report covers the intervening eighteen months and as during the whole of this time the Russo-Japanese War has been in progress the period has been one of exceptional interest.

In the appendix will be found correspondence upon various questions which have occupied the attention of your committee, and which we trust will meet with your approval.

KOWLOON-CANTON RAILWAY.

As this is by far the most important subject to this Colony our committee have largely confined it and we are glad to say that there are signs that these have not been altogether without effect.

In April, 1904, Mr. G. Stewart went to Peking, and was requested by the committee to interview the British Minister and to give them any information he might be able to obtain in regard to railway construction in China.

The result was embodied in a letter to the chairman dated 12th May, 1904, and is published in appendix A, together with a particulars of an important interview with your committee's agent with the officer administering the Government on Wednesday, 18th May, 1904.

We take this opportunity of re-ordering the high appreciation we feel for the consistent sympathy and support accorded to our efforts by Mr. May during his term of office as Acting Governor.

The arrival of H. E. Sir Malcolme Nathan, in July of last year, was naturally a source of anxiety to us, as we were naturally anxious to ascertain if the views of our new Governor on this subject coincided with ours. We are glad to say that His Excellency at once declared himself an enthusiastic supporter of the railway and that since the first day of his arrival he has unceasingly laboured to help forward the enterprise.

After consideration of the project from all points of view, his opinion that it will be better for the Colony itself to construct that portion of the line lying within its own borders, rather than guarantee interest on the whole line. Your committee, although at one time favouring the idea of a colonial guarantee for the whole line, willingly fell in with the Governor's view, which avoids any possible difficulties that might have arisen from the Government of one country guaranteeing interest on a line running through the territory of another.

Thanks to the energy of His Excellency, engineers from home are already at work surveying on our section of the line and we may therefore hope before long to have an estimate of the probable cost to us of this all-important undertaking.

CHINA LEAGUE.

The movement to amalgamate our Association with this body has again been put forward, and after full consideration by our London Committee has been negatively by a small majority. This matter, as you are aware, was considered at an extraordinary general meeting held after our last general meeting on March 17th, 1904, when a similar decision was arrived at.

HATS & DRESSES MADE TO ORDER WITH PROMPTITUDE & EFFICIENCY. BEST VALUE IN THE COLONY.

M. GAINS, Manageress. [1886]

Hongkong, 17th October, 1905.

Your committee have seen no reason to alter the opinion they then held upon this subject, and the appendix B shows their views as given in their letter of 18th August last, which it is hoped correctly express the opinion of the general body of members.

UNIFORM COINAGE OF CHINA.
We have always supported the arrangements outlined in the Mackay Treaty upon this point, and, although the desired end seems still a long way off, owing to the laxity of the Chinese Government in carrying out the stipulations agreed to in that Treaty, we have given what ever influence we may possess towards its attainment.

WEST RIVER STEAMERS.
We have endeavored to secure improved facilities for these steamers, and, since last May last, they have been permitted to clear at their option for either Shanghai or Kowloon, thus relieving steamers proceeding to Whowsh from the long detour formerly necessitated by going to Kowloon.

BARRIERS IN THE CANTON RIVER.
Captain Tyler's scheme for meeting this question provides what appears to be a substantial remedy, as far as can be judged at the present moment; but if heretofore it is found that the partial removal of the obstructions is not effective, it will be within our province to press for a fuller completion of the work of removal.

TRADE MARKS REGISTRATION.
The advisability of having a branch office for this work at Canton has been put forward, and we hope will be secured, as it would be a convenience to importers trading here and in South China.

TRANSIT PASSSES.
This has again occupied our attention. Appendix B shows the line we have taken upon it, and we are glad to say that this system is now working better than formerly.

RAILWAY ENTERPRISE IN CHINA.
Our views on this subject were communicated to the L. don Branch in a letter dated 5th July, wherein we urged the advisability of cooperation with the Japanese.

THE RIGHTS OF NEUTRAL SHIPPING DURING WAR.
We have deemed it advisable to beg our London Committee to press this matter on the Foreign Office in the hope that some settlement of claims within a reasonable period may be effected. The reference in our letter of 5th July was written with the object of drawing the attention of the Home Authorities to the bad effect of our carrying trade which might result if Chinese shipping got the impression that their interests under the British flag are neglected because these waters happen to be a hot way from England. In more than one instance, when steamers have been sunk, notably the *Hipsang* and the *St. Kilda*, we have contented that all accepted rules guiding naval operations have been violated.

THE AMERICAN BOYCOTT.
The American Boycott has occupied public attention of late to a great extent and our committee are fully alive to the fact and we are glad to say that a continuation, and possibly an extension of this course of conduct may have on all foreign trade.

THE RUSSO-JAPANESE WAR.
The termination of the Russo-Japanese War, which from the point of view of humanity all must welcome, will, we hope, be of permanent character; and, although, at the moment, the terms of peace may not appear altogether as complete as all well-wishers of Japan had hoped for, we trust that upon fuller consideration our ally will feel more contentment, and will be able to reap therefrom benefits sufficient to compensate her for the sacrifices she has so nobly made and for the brilliant successes which have fallen to her arms in this Asiatic conflict.

It will be a serious hindrance to the full development of trade in this part of the world if the conclusion of peace is marked only by either party, as a temporary measure only.

TRADE RIGHTS IN MANCHURIA.
Together with two others of our own on this subject we print in the appendix a memorandum by Mr. Kopsch on the subject of commercial affairs in Manchuria. It was written before the war and has been in our possession for some time. But in view of the many important commercial questions which will inevitably arise out of the new conditions created by the war, we venture to think that its contents may prove of interest to many members.

THE CHAIRMANSHIP.
Mr. Wilson resigned the chairmanship of this branch of the Association on his departure from the Colony in January of this year. As will be seen from the correspondence on the subject the Hon. Mr. G. Stewart was appointed to succeed him.

We desire to record our indebtedness to Mr. Wilson for the excellent work which he accomplished during his term of office, and we are glad to know that his services have received appropriate acknowledgment at home by his appointment to a seat on the London Committee.

THE COMMITTEE.
During the period under review there have been many changes in the personnel of the committee. It now consists of the following gentlemen:—Hon. Mr. G. Stewart, chairman, Mr. G. W. E. Playfair (absent), Mr. A. G. Wood, Mr. H. W. Robertson, Mr. E. Osborne, Mr. G. H. Medhurst, Mr. F. Salinger, and Mr. M. Stewart, hon. secretary.

THE
DIRECTIONS AND CHRONICLE
FOR
CHINA, JAPAN, COREA, INDO-CHINA
SIAM, STRAITS SETTLEMENTS,
MALAY STATES, NETHERLANDS
INDIA, PHILIPPINES,
BORNEO, &c.,
WITH WHICH ARE INCORPORATED
THE CHINA DIRECTORY
AND
THE HONGKONG DIRECTORY
AND HONG LIST FOR THE FAR EAST
FOR
1905.
THE FORTY-THIRD ANNUAL ISSUE.

The DIRECTIONS covers the whole of the
ports and cities of the Far East, from Nether-
lands India to Siberia, in which Europeans reside.
Not only is the Directory as full and complete
in each case as it can be made, but each Colony,
Port, or Settlement is prefaced by a DESCRIPTIVE
TITON, carefully revised each year, most of
which will serve as a guide to the traveler, and
the traveler, giving every detail in connection with
the place, their History, Topography, &c., &c.
The Information in these Descriptions, consist-
ing of a hundred interesting articles, packed
with facts concisely set out, and containing
statistics of the Trade of each Country and
Port, would alone suffice to fill a large volume.
Royal Octavo—Complete with Fourteen Map
and Plans, pp. 1,750, \$19.00. Directory only
p.p. 1,300, \$8.00.

The Directories and Descriptions are of

CHINA	CHINA	CHINA
Peking	Wukow	Canton
Tientsin	Kowloon	Whampoa
Paitaiho	Hankow	Kowloon
Taku	Yochow	Lappa
Nowchwang	Shanghai	Samsui
